

Friday the 13th comes for Katy Perry and Orlando Bloom (how the great have fallen).

For Illuminati watchers

Miley Cyrus (monkey cute) has agreed to resume her role as presumptive Queen of the Illuminati.

She was upset that Katy Perry was shoe horned into her place, as Miley was always going to take over from Madonna the former Queen of the illuminati when Madge retired. Madonna was deposed from power by the illuminati prince of darkness: Tim Rifat who is so bad he used the illuminati for target practice. The prince put Katy as the new Queen instead of Miley, but with her hay hay video declaration that she has chopped off her own illuminati Queens head so she can go with the

official illuminati wickerman Orlando Bloom the damned Davy Jones, she has voluntarily relinquished her Queenhood and wishes to be burnt alive with Bloom in the future. Worse still, Perry in the guise of her monster of the id attacked the prince of darkness armed and armoured with the illuminati sword of justice; which ofcourse is hysterical as she ofcourse was cheating on the Prince of Darkness. He got his regent to retaliate with the Psychic Warfare Assault Weapon to guarantee the demise of all who stands Prince's way.

Meanwhile Miley who is not physically revolted by the prince has been officially raised to presumptive Queen of the illuminati. For survival Katy will have to dump Bloom and go black pageboy hairstyle to link in with her monster of the id that still survive or, keep her blond bulldyke look, marry Bloom and become the official illuminati wickerwoman. Meanwhile Tim Rifat prince of darkness is off to Hong Kong the site of the doctor strange battle royale where instead of blocking the entry of the Great Dark Lord into reality, he will release him to spice up Armageddon. Finally he will be coming hay hay as he stuffes his face stuckling pig.

Meanwhile Taylor Swift is chuckling at Katy Perry's demise and is busily working for the US deep state with her: Delicate video. This video uses the immense power of Taylor to try to build a psychic defense field to protect the Americans from the Russians, North Koreans...who are using the Psychic Warfare Assault Weapon to blast away at their Nato enemies. Meanwhile, Tim Rifat the prince of darkness eats more suckling pigs and has a chuckle with Taylor.
